

## Our Motivations

- 35% of the newborn children in Germany have an immigrant background!
- the large differences between the education quotas of the education of migrants and Germans!

Reasons for this are...

... small refundable knowledge's and reconnaissance of the parents' house about the German school system

...small refundable knowledge of the German language of the children to school beginning

...lack of motivation and support of parents and the educational institutions.

MENTORS / EDUCATION ANGELS = STUDENTS,  
UNIVERSITY GRADUATES, JUNIOR EMPLOYEES

## Our Goals

COMPREHENSIVE SCHOOL

## Why should you support the foundation?

The education of the migrant children shows large problems and lacks.

We, as German-and Migrant role models, can together perform great contributions for this.

The German economy has to depend on the potential of these children.

Therefore, we cannot afford to exclude them due to lack of funding us. Well-trained, multicultural and multilingual professionals and executives can afford valuable amounts in the global competition for Germany.

**Overall we have brought together through our contribution of 14 events incl. events opening about 800 people from various levels in the wide mentoring concept.**

**We invite you ALL to take part!**
